The Minho Collection

Nurturing design talent to create unique concepts

The Minho Collection consists of 3 stunning designs by Bobbi Fitzpatrick, winner of our 2024 competition in collaboration with the prestigious KLC School of Design and West Dean.

"Bobbi's designs seamlessly blend nature's raw beauty with contemporary artistry, creating something truly unique", Richard Meager, Jacaranda's Founder and Joint Managing Director

Inspired by nature

Inspiration for the Minho Collection was sparked during a coastal hike Bobbi took along the rugged cliffs of Lagos, Portugal.

Each rug reflects nature's raw beauty, echoing the erosion-sculpted rock formations that line the coastline. In a palette of warm, earthy browns, the collection is perfectly in line with current trends, offering a versatile and inviting touch to any interior.

Each rug is hand-tufted in renewable TENCEL™ and wool, showcasing contrasting textures, artisan carving, and varying pile heights. These details create rugs that bring depth, impact, and sophistication to any space.

Fully customisable

Each design in the Minho Collection can be fully customised to your exact specifications, whether made-to-measure as a rug or installed wall-to-wall as carpet.

All designs come with a contract rating, ensuring they are suitable for luxury residential and high-end commercial spaces. Colours and yarn compositions can be tailored to meet the specific needs of your design.
